ANNOUNCEMENT
987 | FEB 2023

We've got NEW SKIN!

We are excited to unveil our new packaging.
Our packing is now a whole lot more vibrant, robust and is a closer reflection of our exciting brand.

Our secondary boxes are bright and colourful & carry the primary brand colours which convey the high-quality and precision-crafted product they protect. Our shipping crates have been matched to reflect this new packaging to provide you with a more durable and secure shipping experience, ensuring that your components arrive in optimal condition.

Doing our part to reduce our impact on the environment, we utilise over 60% of recycled materials in this new packaging and are thrilled to share this exciting development with you.

We believe that our new packaging not only enhances the overall customer experience but also better embodies the quality and dependability of our product.
